- 15.1 The Finance Act 2008 introduced amendments to the Workers' Welfare Fund (WWF) Ordinance, 1971 whereby the definition of industrial establishment was extended. The amendments were challenged at various levels and conflicting judgments were rendered. The Honourable Supreme Court of Pakistan vide its judgment dated 10 November 2016, has upheld the view of Lahore High Court and decided that WWF is not a tax and hence the amendments introduced through Finance Act 2008 are ultra-vires to the Constitution. The Federal Board of Revenue has filed Civil Review Petitions in respect of above judgment with the prayer that the judgment dated 10 November 2016 passed in the Civil Appeal may kindly be reviewed in the interest of justice.

In view of the above, the Company is of the view that it is not liable to pay this liability. However, the management has made provision for WWF for the years from 2008 to 2014 amounting to Rs. 1.79 million as a matter of abundant caution.

Further, as a consequence of the 18th amendment to the Constitution, levy for the WWF was also introduced by the Government of Sindh through the Sindh Workers Welfare Fund (SWWF) Act 2014. SWWF Act 2014, enacted on 21 May 2015, requires every Industrial Establishment located in the province of Sindh and having total income of Rs. 0.5 million or more in any year of account commencing on or after the date of closing of account on or after 31 December 2013, to pay two percent of so much of its total income declared to SWWF. The said Act includes any concern engaged in the Banking or Financial Institution in the definition of "Industrial Undertaking" but does not define Financial Institution. From 2015 to the date, the Company has created provision of SWWF amounting to Rs.2.756 million out of which Company has paid SWWF of Rs. 1.984 million.

25 FAIR VALUE OF FINANCIAL ASSETS AND LIABILITIES

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between the market participants at the measurement date.

Underlying the definition of fair value is the presumption that the company is going concern without any intention or requirement to curtail materially the scale of its operations or to undertake a transaction on adverse terms.

The fair value of financial assets and liabilities traded in active markets i.e. listed equity shares are based on the quoted market prices at the close of trading on the period end date. The quoted market prices used for financial assets held by the Company are current bid prices.

A financial instrument is regarded as quoted in an active market if quoted prices are readily available and regularly available from an exchange, dealer, broker, industry group, pricing services, or regulatory agency, and these prices represent actual and regularly occurring market transactions on an arm's length basis.

IFRS 13, 'Fair Value Measurements' requires the company to classify fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the

The different levels (methods) have been:

Level 1: Fair value measurements using quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: Fair value measurements using inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3: Fair value measurements using inputs for the asset or liability that are not based on observable market data (i.e. unobservable inputs).

Fair value of the financial assets that are traded in active markets are based on quoted market prices.
