MORNING NEWS

Iran studying deal to halt war: (Economy: Neutral to Positive)

Iran is reviewing a proposed agreement with the US to halt their war but has not communicated with Washington for a few days, Iranian media reported on Tuesday, though US President Donald Trump said negotiations had been going on continuously. More than three months after the US and Israel launched strikes against Iran, the conflict is stuck in a stalemate, with a shaky ceasefire in place while the pivotal Strait of Hormuz remains largely shut to maritime traffic. Iran has not yet responded to a proposed final text of a temporary deal, and was taking a "stern" approach given what it sees as a history of US non-compliance and longstanding mistrust, Mehr News Agency cited a source as saying. The semi-official Fars agency, also citing a source, added that messages on the possible deal, or memorandum of understanding, had stopped a few days ago, with the last one being Tehran's "clear message" over Lebanon, where Iran is seeking a halt to Israel's incursion against its ally Hezbollah.

Beyond the IMF baseline: Pakistan's hard fiscal choices in FY27 budget: (Economy: Negative)

On April 27, the State Bank of Pakistan (SBP) raised the policy rate by 100 basis points to 11.5%, its first hike since June 2023. On May 14, the International Monetary Fund (IMF) published Country Report 26/101, projecting fiscal year 2026-27 (FY27) growth at 3.5%, average inflation at 8.4%, a current account deficit of 0.9% of gross domestic product (GDP), gross reserves rising toward \$21 billion, and an underlying primary surplus of 2% of GDP. The two documents are seventeen days apart, yet they seem to describe two different countries. The gap exists because the IMF baseline was built before the Iran-US war had fully transmitted into Pakistan's inflation, import and energy channels. The staff report acknowledges downside risk but does not quantify it. The SBP, sitting closer to the inflation prints and the import bill, broke with the baseline before the Fund could publish it. That gap is where the budget story begins.

Govt to announce budget on June 10 instead of June 5, says parliamentarian: (Economy: Neutral)

Pakistan government will present its annual budget on June 10 for the financial year 2026-27, it was learnt on Tuesday. Senior Pakistan Muslim League-Nawaz (PML-N) leader and Member of the National Assembly (MNA), Tahira Aurangzeb, confirmed to Business Recorder that the federal budget, which was earlier scheduled to be announced on June 5 (Friday), would now be presented on June 10 (Wednesday). She also disclosed that the National Assembly session convened for the budget presentation had been postponed accordingly.

Beverage industry proposes reduction in taxes from 20pc to 15pc ahead of FY2026-27 budget: (Economy: Neutral to Positive)

The beverage industry has proposed reducing the Federal Excise Duty (FED) on aerated waters from 20 per cent to 15pc. It assured that the legitimate beverage industry would generate an additional Rs8 billion in gross tax revenues in the first year and projected cumulative gross tax collections of around Rs63 billion over a three-year period. In a letter to the Federal Board of Revenue (FBR) and the finance ministry, the Beverages Advisory Foundation (BAF) said that a lower FED rate would expand the tax base and generate higher cumulative tax collections, whereas higher taxes on the beverage industry have led to an increase in the share of the undocumented sector.

No extra tax on poultry feed makers, rules FCC: (Economy: Neutral)

Days before the announcement of the budget, the Federal Constitutional Court (FCC) has affirmed that poultry feed manufacturers and poultry farmers were not liable to pay additional tax under Section 3(1A) of the Sales Tax Act, 1990. A two-judge FCC bench, headed by Justice Aamer Farooq and also including Justice Muhammad Karim Khan Agha, set aside a Dec 24, 2025, Lahore High Court (LHC) judgement and ruled that imposing a 4 per cent tax on supplies made to non-registered entities would be unjust and against the sales tax regime. The bench had taken up a set of appeals moved by Shahzor Feeds (Pvt) Ltd, Lahore Feeds Ltd and S.S. Feed Mills Pvt Ltd.

PIDE proposes Rs45,000 minimum wage: (Economy: Neutral to Positive)

Pakistan Institute of Development Economics (PIDE), a state-owned think tank, has asked the government to increase the minimum wage by at least 12.5 per cent to Rs45,000 and ensure its rule-based enforcement, rather than a notional announcement, given the country's economic conditions and inflationary pressures. "In a period marked by persistent inflationary pressures, food and energy shocks, labour market informality, and rising household vulnerability, minimum wage policy must evolve into a credible macro-social policy instrument capable of protecting workers while remaining economically sustainable and administratively enforceable," PIDE said in its policy note to the government ahead of FY27 budget.

Exports fail to take off despite big Uraan target: (Economy: Negative to Neutral)

Despite the government's much-publicized Uraan programme targeting USD60 billion in exports, the Commerce Ministry on Tuesday admitted that the country's exports remain stagnant, citing anti-export taxes, high energy and financing costs, and structural hurdles that increase the cost of doing business in the country. In a meeting of the National Assembly Standing Committee on Commerce, chaired by Muhammad Jawed Hanif Khan, a calling attention notice regarding the country's exports was taken up, highlighting that export earnings have remained stagnant at USD25-30 billion for nearly two decades. Aliya Kamran, the mover of the calling attention notice, questioned why exports remain stagnant despite the URAAN programme's USD60 billion target, noting that more than a year and a half after its launch, no export growth has been observed.

Pakistan suffers \$1.4bn trade loss on Afghan border closure: (Economy: Negative)

Pakistan's trade sector has absorbed a blow of more than \$1.4 billion in recent months as twin disruptions, the closure of the Afghan border and logistical turmoil across Gulf trade routes, squeezed exports and transit earnings, officials informed a parliamentary panel on Tuesday. The losses reflect mounting external pressures on Pakistan's trade network at a time when export momentum had begun to strengthen. While outbound shipments climbed 18% to \$31.8 billion during the first ten months of fiscal year 2025-26, disruptions along western and Middle Eastern corridors exposed the fragility of the country's regional trade dependencies. Trade flows with Afghanistan came to a near standstill after Pakistan sealed its border on October 11, 2025, freezing bilateral commerce and blocking transit access to landlocked Central Asian economies.

Pakistan cuts mango export target by nearly 30%: (Economy: Negative)

Pakistan's mango export season has begun under significant strain, with exporters reducing this year's export target by nearly 30% due to escalating geopolitical tensions in the Middle East, soaring freight charges, climate-related challenges, and declining fruit production. However, industry representatives warn that the sector is facing one of its toughest export seasons in recent years. The export target has been revised downward to 80,000 tons from 110,000 tons recorded last year, reflecting the extraordinary difficulties confronting the trade, according to Waheed Ahmed, Patron-in-Chief Pakistan Fruit and Vegetable Exporters, Importers and Merchants Association (PFVA). The reduction is expected to significantly impact export earnings, which are projected to decline to between \$75 million and \$80 million this season, compared to approximately \$110 million generated last year, APP reported.

PD moves NEPRA for approval: (Economy: Neutral to Negative)

The Power Division has formally approached National Electric Power Regulatory Authority (NEPRA) for approval to impose additional charges on wheeling consumers under a uniform grid charges mechanism, to be implemented nationwide as Use of System Charges (UoSC), including for K-Electric. NEPRA has scheduled a public hearing on June 11, 2026, to deliberate on the federal government's motion, along with proposed policy guidelines aimed at standardizing the UoSC regime across the country. According to the regulator, the motion stems from its earlier determinations issued on December 18, 2025, concerning UoSC for ex-WAPDA distribution companies (DISCOs). The government now intends to extend a uniform framework for grid charges applicable to all bulk power consumers (BPCs) and open access users, including K-Electric, in line with the National Electricity Policy, National Electricity Plan, and Electric Power Supplier Licences Rules, 2023.

Agriculture sector: growers push for climate-resilient seeds, tech overhaul: (Economy: Neutral to Positive)

Farmers and progressive growers have called on Pakistan's federal and provincial governments to urgently overhaul agricultural policy, urging a shift towards modern farming techniques, climate-resilient seed development and stronger research investment to arrest declining yields. In a bid to stabilise the struggling sector and safeguard food security, they also pressed for subsidised fertilisers, guaranteed pricing for at least four major crops, and expanded value-addition measures to lift farm incomes.

Cement dispatches down 21pc in May: (Economy: Neutral)

Cement dispatches declined 21 per cent in May 2026, with both domestic sales and exports recording significant decreases compared with the same month last year. Total cement dispatches stood at 3.837 million tonnes in May 2026, compared with 4.858 million tonnes dispatched in the corresponding month of the previous fiscal year, reflecting a decline of 21.02 per cent. According to data released by the All Pakistan Cement Manufacturers Association (APCMA), domestic cement dispatches amounted to 3.205 million tonnes during the month, down 17.17 per cent from 3.869 million tonnes in May 2025. Export dispatches also fell sharply, declining 36.06 per cent to 632,648 tonnes from 989,434 tonnes a year earlier.

<https://www.thenews.pk/print/1418509>

Petroleum sales fall 23pc in May: (Economy: Negative)

Sales of petroleum products fell 23 per cent year-on-year (YoY) in May to 1.17 million tonnes amid elevated fuel prices and subdued economic activity during Eidul Azha. Excluding furnace oil (FO), oil marketing company (OMC) sales declined 21 per cent YoY to 1.14 million tonnes, marking the lowest May volume recorded since 2013, according to data released on Tuesday. Analysts attributed the sharp decline to persistently high petroleum prices, which dampened fuel consumption across the country. Average motor spirit (MS) prices rose 59 per cent YoY to Rs402 per litre, while high-speed diesel (HSD) prices increased 57 per cent to Rs401.46 per litre.

Treet Battery Limited Signs MOU with CNTE: (Economy: Positive)

Treet Battery Limited (PSX:TBL) has officially entered into a Memorandum of Understanding (MOU) with China-based Contemporary Nebula Technology Energy Co., Ltd. ("CNTE") to explore long-term strategic cooperation opportunities in Pakistan's energy storage sector. The collaboration aims to introduce high-quality, CATL-cell-based energy storage technology, advanced technical expertise, and product portfolios to the Pakistani market. The strategic framework envisages cooperation across residential, commercial, and industrial energy storage solutions, leveraging CNTE's advanced product offerings alongside Treet Battery's established local market presence, distribution network, and after-sales infrastructure, with future potential for local assembly and value addition.
