Govt decides to regulate used car imports: (Economy: Neutral to Positive, Autos: Positive)
After months of serious pressure by local automobile manufacturers, the government has decided to tighten regulations on used car imports after the local auto industry warned that over 120,000 imported vehicles in a year were pushing it toward collapse. In a meeting chaired by SAPM Haroon Akhtar Khan, officials highlighted that used car imports have risen to 20% of Pakistan's auto market, compared to negligible levels in regional countries due to strict controls. Following the Prime Minister's directives, a new framework will be introduced to ensure only vehicles meeting safety and environmental standards are allowed. Industry representatives stressed that tax reforms and strong oversight of used car imports are essential to stabilizing local production. Officials also confirmed that existing conditions for commercial imports and mandatory pre-shipment inspections will remain in place to ensure quality and transparency.

First NFC session: Provinces oppose Centre's plan to transfer HEC, BISP, PSDP cost: (Economy: Neutral)
At the maiden session of the 11th National Finance Commission, provinces—especially Sindh and KP—strongly opposed the federal government's attempt to shift selected expenditures onto provincial budgets, arguing that the NFC's mandate is limited to revenue distribution, not assigning federal responsibilities. The federal govt presented a dire fiscal outlook, citing rising deficits, heavy borrowing, and debt servicing that has consumed all resources since the 7th NFC Award, while urging provinces to boost revenue generation. Despite disagreements over issues such as HEC, BISP, and PSDP projects, all sides reached consensus on formally incorporating KP's merged tribal districts into future NFC calculations. Provincial leaders highlighted their financial constraints and contributions, while federal officials stressed the need for stronger nationwide revenue mobilisation. The meeting concluded with commitments to a transparent and collaborative NFC process and the formation of technical sub-groups for future deliberations.
