<b>Local Indices</b>			<b>Pakistan receives \$140m RDA inflows, lowest since Dec '20</b> – (Economy; Neutral to Negative) Foreign currency inflows from overseas Pakistanis through Roshan Digital Account (RDA) clocked in at \$140 million in December, according to data from the State Bank of Pakistan on Thursday. Since the launch of RDA in September 2020 to December 2022, the country received a total of \$5.6 billion in inflows from the Pakistani diaspora living abroad. During this period, the amount invested through Naya Pakistan Certificates (NPCs) was \$3.5 billion. Within NPCs, \$1.772 billion was invested in conventional NPCs and \$1.725 billion in Islamic certificates. Expatriate Pakistanis invested \$48 million in the stock market. <a href="https://www.thenews.com.pk/print/1027556-pakistan-receives-140m-rda-inflows-lowest-since-dec-20">https://www.thenews.com.pk/print/1027556-pakistan-receives-140m-rda-inflows-lowest-since-dec-20</a>

<b>World Indices</b>			<b>SBP's forex reserves continue to decline</b> – (Economy; Negative) The State Bank of Pakistan (SBP)-held foreign exchange reserves suffered a major depletion in the week owing to external debt servicing, data showed Thursday. During the week ended on December 30, 2022, the central bank's forex reserves fell \$245 million to \$5.57 billion, a statement from the central bank said Thursday, down from last week's reserves of \$5.821 billion. The net foreign reserves held by commercial banks amount to \$5.84 billion, with the total reserves clocking in at \$11.42 billion, the statement mentioned. The reserves, which hit their lowest level since April 2014, will now only provide import cover worth 1.06 months, as the country tries to lessen imports amid a greenback shortage. <a href="https://www.thenews.com.pk/latest/1027501-sbps-forex-reserves-continue-to-decline">https://www.thenews.com.pk/latest/1027501-sbps-forex-reserves-continue-to-decline</a>

<b>KIBOR Rates</b>			<b>Public debt swells to Rs50.9tr in November</b> – (Economy; Negative) Pakistan's public debt increased 24.2 percent year-on-year to Rs50.9 trillion in November 2022, the central bank data showed on Thursday, courtesy of government's increasing borrowing needs to meet the budget deficit and lack of external financing in the country. The debt stood at Rs40.9 trillion as of November 30, 2021, increasing by 1.5 percent or Rs752 billion month-on-month. In October 2022, the debt was Rs50.1 trillion, while it had stood at Rs47.784 trillion at the end of June 2022. <a href="https://www.thenews.com.pk/print/1027551-public-debt-swells-to-rs50-9tr-in-november">https://www.thenews.com.pk/print/1027551-public-debt-swells-to-rs50-9tr-in-november</a>

<b>Exchange Rates</b>			<b>IPPs bound to use Thar coal first</b> – (Power; Positive) The National Electric Regulatory Authority (Nepra) has made it mandatory for all independent power producers (IPPs) to utilise local coal, particularly from Thar, before opting for imports that would also be contracted in Pakistani rupees. This has been done through notification of 'Guidelines for Procurement of Coal on Spot Basis' issued by the regulator to ensure that procurement of coal on a spot basis is conducted fairly and transparently and is efficient, economical and provides value for money for the consumers. If no local coal is available which meets the desired specifications, then IPPs shall proceed with spot purchases through a transparent process by reaching out to all suppliers through advertised publications with sufficient time given for response. <a href="https://www.dawn.com/news/1730194/ipps-bound-to-use-thar-coal-first">https://www.dawn.com/news/1730194/ipps-bound-to-use-thar-coal-first</a>

## MORNING NEWS

### **Govt plans meeting with oil sector to address financial issues – (OMCs & Refinery; Neutral)**

Government has summoned a meeting with the oil sector of the country next week to take up its various issues, especially the problems that have been hitting the sector financially, *The News* learnt on Thursday. Government has invited the oil marketing companies (OMCs) and refineries on January 10 to discuss and find out ways for resolving the issues. According to sources, OMCs have been complaining about their margins on petroleum products sales. The government has not fulfilled its commitment to raise the margin wholly as the margin was partially increased, which was not helping OMCs meet their financial needs and cost. Sources said that government had committed to raise the margins of OMCs to Rs6/litre; however, the margin was only increased to Rs5/litre. The refineries have also been concerned about the refining policy, which was not being approved on the highest level despite its finalisation. Sources said that no government functionary was telling the sector as to what the hurdles were in its approval.

### **Commercial banks refuse credit letters of edible oil importers – (Food Sector; Negative)**

Commercial banks have started refusing opening of the letters of credit for edible oil imports despite exclusion of the sector from the condition of prior permission from the central bank. Edible oil importers and ghee manufacturers have been informed unofficially that their letters of credit cannot be opened at the interbank exchange rates. However, the commercial banks were very much willing to do business with these importers if they were willing to open credit letters at Rs250 and above exchange rate against a dollar.

### **Millat Tractors halts production for indefinite period – (Autos; Negative)**

Tractors Limited (MTL) Thursday announced halting its production for an indefinite period commencing from tomorrow (Friday), stating that they could not plough ahead with their operations amid a plunge in demand and cash crunch. Analysts identified that the worsening economic crisis has thrown spanners in the works of many industries until recently, bringing their productions to a standstill and in some cases causing massive layoffs of their employees. The MTL is not the first to shut down its production to save it from further losses as a number of others have also fully or partially quit operations because of demand, inventory, energy, and supply chain constraints.

### **Bank profits to fall – (Banks; Neutral to Negative)**

Earnings of commercial banks are expected to drop by 4-11 per cent for 2022 if the government imposes a new tax on their foreign exchange income. Finance Minister Ishaq Dar said in a recent press conference that the government was planning to ramp up its tax revenues by levying an additional tax on banks, which have made "excessive gains" on the back of a high volatility in the currency market. State Bank of Pakistan (SBP) Governor Jameel Ahmed recently told a standing committee of the National Assembly that the central bank was undertaking an investigations into the role that leading banks played in the exchange rate's manipulation in recent months.
