Key indicators on track despite ME tensions: Aurangzeb: (Economy: Neutral to Positive)

Finance Minister Muhammad Aurangzeb told the National Assembly Standing Committee on Finance that Pakistan remains broadly on track on key economic indicators despite regional tensions and external pressures, expressing confidence that the International Monetary Fund (IMF) Executive Board would approve the next loan tranche. Minister for Finance and Revenue briefed the Committee on Pakistan's current economic performance and held detailed deliberations on reforms aimed at strengthening the country's housing finance sector. He informed the panel that Pakistan remains on track to achieve its key fiscal targets through prudent fiscal management, improved external account performance, and measures aimed at enhancing investor confidence and macroeconomic stability.

Oil imports on CIF basis: SBP extends relaxation to July 10: (Economy: Neutral to Positive)

The State Bank of Pakistan has extended permission for the import of crude oil and petroleum products on Cost, Insurance and Freight (CIF) basis until July 10, 2026 to facilitate uninterrupted fuel supplies amid continued volatility in international oil markets. The SBP had initially allowed the import of crude oil and petroleum products on CIF basis for 60 days on March 11, 2026, as global oil prices witnessed sharp fluctuations due to geopolitical tensions and supply concerns in international markets. Under the CIF mechanism, the seller bears the cost, insurance and freight charges up to the destination port, providing importers greater operational convenience and helping ensure timely availability of petroleum products.

Oil prices jump on renewed US-Iran hostilities: (Economy: Negative)

Oil prices were up more than 1% on Friday after renewed fighting broke out between the US and Iran, threatening a shaky ceasefire and dashing hopes for progress on reopening the Strait of Hormuz, a key oil and gas transit route. Brent crude futures were up \$1.41, or 1.41%, at \$101.47 a barrel as of 0123 GMT. West Texas Intermediate (WTI) US crude futures rose by \$1.12, or 1.18%, to \$95.93 a barrel. At the market open prices had risen by more than 3%. That snapped three days of declines on reports earlier this week the US and Iran were close to agreeing to a deal that would end the fighting and allow the Strait of Hormuz to fully reopen but put off larger issues around Iran's nuclear programme. For the week, both contracts are set to fall about 6%.

FCC strikes down Section 7E tax on property: (Economy: Positive, RIET: Positive)

In one of the most consequential tax rulings in Pakistan's recent judicial history, the Federal Constitutional Court (FCC) unanimously struck down Section 7E of the Income Tax Ordinance, 2001, declaring the contested property levy unconstitutional, void from its very inception, and without any legal force whatsoever. Chief Justice Amin-ud-Din Khan, sitting alongside Justice Ali Baqar Najafi, delivered the short order in open court in Islamabad, bringing to a decisive close a legal saga that had engulfed every major High Court in the country for nearly four years and mobilised over two hundred petitioners, from individual homeowners in Karachi to major textile conglomerates in Lahore, from bar associations to blue-chip corporations. When the government introduced the Finance Act 2022, it slipped in one of its most bitterly contested provisions. Section 7E introduced a "deemed income" tax on immovable property, essentially treating the value of real estate as if it were generating taxable rental income at a fixed rate, regardless of whether the owner had actually earned a single rupee from that property.

Forex reserves up USD25m: (Economy: Neutral to Positive)

According to the weekly report issued by the State Bank of Pakistan (SBP) on Tuesday, the country's total liquid foreign exchange reserves rose to USD21.294 billion as of April 30, 2026, compared with USD21.269 billion recorded on April 24, 2026. During the week under review, the SBP's own foreign exchange reserves increased by USD23 million to USD15.851 billion, up from USD15.828 billion a week earlier. Meanwhile, net foreign reserves held by commercial banks also edged up by USD2 million to USD5.443 billion at the end of the week, compared with USD5.441 billion in the previous week.

Removal of super tax, rationalisation of WHT on exporters recommended: (Economy: Neutral)

The textile exporters, dairy, telecom, and real estate sector have strongly proposed that Finance Bill 2026 should reduce tax burden on documented sectors, including abolishing the super tax and reducing rates of Withholding Taxes (WHT) in the upcoming budget. During the Senate Standing Committee on Finance and Revenues which met under Chairmanship of Senator Saleem Mandviwalla here at the Parliament House on Thursday, the Telecom Operators Association on Thursday presented a detailed presentation and demanded of the government to abolish custom duty on import of 5G equipment as committed by the PM Shehbaz Sharif on the occasion of approving last spectrum auction. They also asked for reducing WHT rate from 6 percent to 4 percent u/s 153 and carry forward of turnover tax from 2 years to 5 years u/s 113 (ITO 2001). The All Pakistan Textile Mills Association (APTMA) recommended the removal of the super tax and the rationalization of withholding tax on exporters. Pakistan Dairy Association (PDA) asked the government to reduce the rate of GST from 18 percent to 10 percent in the upcoming budget. They argued that the share of loose milk stood at Rs 7.9 trillion while the formal sector's share hovered around Rs 331 billion with tax contribution of Rs 53 billion revenues on annual basis.

PTL grows solar fleet with new contract: (Economy: Neutral, PTL: Positive)

Panther Tyres Limited (PSX:PTL) has awarded a contract for the installation of a 3.5 MW solar power system to a well-established solar energy solutions provider. Procurement is already underway, with implementation work currently in progress. Upon completion, the Company's total solar energy capacity will rise to 6 MW, combining the new system with its existing 2.5 MW solar installation. The project will feature high-efficiency Jinko 720W solar panels paired with Huawei inverters, and is expected to deliver an estimated annual reduction of approximately 4,700 metric tons of CO₂ emissions, the environmental equivalent of planting around 220,000 trees.
