Pakistan establishes online exchange of Customs data with Uzbekistan: (Economy: Neutral to Positive)
Pakistan Customs and the State Customs Committee of Uzbekistan have successfully operationalised the electronic exchange of pre-arrival Customs information, following the Memorandum of Understanding signed between the two administrations. According to the details, Customs officers could now access the exchanged data for operational use. These system enhancements have streamlined the processing of customs declarations, improved risk assessment capabilities, and reduced consignment dwell time at border stations. This exchange is the first in a series of planned Customs data sharing agreements with other regional partners. It aligns with Pakistan's broader goals under the Central Asia Regional Economic Cooperation (CAREC) Programme, especially in promoting trade facilitation, advancing Customs cooperation, and enhancing digital connectivity.

Settlements: Capital market shifts to T+1 cycle: (Economy: Positive)
Pakistan's capital market has officially transitioned to a T+1 settlement cycle, marking a major structural reform aimed at improving market efficiency, reducing risk, and aligning the country's financial system with international best practices. Effective February 9, all eligible trades executed at the Pakistan Stock Exchange (PSX) are now settled on a Trade plus one (T+1) basis, replacing the earlier T+2 settlement cycle. The transition has been implemented under the guidance of the Securities and Exchange Commission of Pakistan (SECP) through close coordination among key market institutions, including the Pakistan Stock Exchange, National Clearing Company of Pakistan Limited (NCCPL), Central Depository Company (CDC), Pakistan Stock Brokers Association (PSBA), State Bank of Pakistan (SBP), Pakistan Banks Association (PBA), Mutual Fund Association of Pakistan (MUFAP), securities brokers, custodian clearing members, asset management companies, settling banks, E-Clear, and other non-broker clearing members.

Nepra pulls the plug on net-metering: (Economy: Neutral)
In a rapid move, the National Electric Power Regulatory Authority (Nepra) on Monday drastically changed the terms of contracts for all existing and future net-metered solar consumers — known as prosumers — to contain rising solar energy penetration and protect an expensive and inefficient state-owned power network. The contractual changes were introduced through a predetermined set of regulations that had been published as draft for public opinion but were notified without any change after a public hearing. The notification effectively terminates the existing net-metering regime and replaces it with net-billing for all. Under the new regulations, the existing registered prosumers will be shifted immediately to net-billing instead of net-metering, and their export units will be credited for one month only instead of the current three months. All other existing terms will remain unchanged until expiry of their seven-year contracts. New prosumers will be granted only five-year contracts, and their export units will be accepted at Rs11 per unit compared to Rs26 under the existing contracts. Consumers' import units from distribution companies (Discos) will now be billed separately at Rs37-55 per unit, depending on the relevant slab, excluding taxes, surcharges and duties. Surplus generation exported to Discos will be calculated separately — at Rs26 per unit for existing and around Rs10 per unit for future prosumers

Pakistan car sales jump 43% YoY in first seven months of FY26: (Economy: Positive)
Car sales in Pakistan increased by 43% year-on-year (YoY) to 111,377 units in the first seven months of the fiscal year 2025-26 (FY26), showed Pakistan Automotive Manufacturers Association (PAMA) on Tuesday. Car sales (including LCVs, Vans, and Jeeps) stood at 77,686 units in 7MFY25. In January 2026, car sales in Pakistan clocked in at 23,055 units, marking a 43-month high, reflecting a 36% YoY and 74% MoM increase. "There are two reasons for the increase in sales of all vehicles; a decrease in interest rate set by the State Bank of Pakistan (SBP) and light-and-small industry improved performance following a boost in auto sales," auto analyst Mashood Khan said.
