**MORNING NEWS**

**Pakistan pushes diplomatic track as US, Iran hit 'stall'-mate:** (Economy: Positive)  
Despite signs that negotiations between the United States and Iran have stalled after President Donald Trump rejected Tehran's latest response to a proposed settlement framework, diplomatic activity across the region continued intensively on Monday, with Pakistan remaining engaged in mediation efforts even as military pressure and fears of renewed confrontation continued to shape the crisis. A series of diplomatic contacts since Trump rejected Iranian response suggested that regional and international actors are still attempting to prevent the situation from sliding back toward open hostilities. The dismissal of Iran's response as "totally unacceptable" by President Trump has only reinforced the growing perception that the two sides remain far apart, not only in terms of a possible agreement, but also on the broader political logic underpinning the negotiations.

**Revenue target in FY27 budget: Govt mulls Rs780bn enforcement measures instead of new taxes:** (Economy: Positive)

The government is unlikely to introduce any new taxes in the upcoming budget, as it plans to achieve next year's revenue target through enforcement and administrative measures estimated at Rs 778-780 billion. Sources told Business Recorder that the federal budget for the next fiscal year is expected to provide relief to taxpayers, with the authorities relying on alternative revenue-generation measures to offset potential revenue losses. If the government provides relief to the salaried class, the corporate sector, and taxpayers paying Super Tax, the revenue loss would be bridged through alternate revenue measures. However, no new tax would be imposed in the coming 2026-27 budget. The revenue measures would be taken only to overcome revenue loss on account of relief measures. But the net impact of taxation measures would be zero in 2026-27.

**Pakistan, China ink \$13bn deals:** (Economy: Positive)

Pakistan's Ambassador to China said that Pakistan and China had signed more than 300 memorandums of understanding (MoUs) and over three dozen joint venture agreements (JVAs) during the last two years, with a cumulative value exceeding \$13 billion. He said the government had established a comprehensive mechanism to ensure the effective implementation of MoUs and their conversion into practical business agreements. He said Pakistan's conversion rate from MoUs to formal contracts and agreements had reached nearly 30 percent, reflecting the effectiveness of the government's follow-up and execution framework. According to a KCCI press release, Mr Hashmi said Pakistan was engaged in discussions with CATL, one of the world's largest battery manufacturers specialising in lithium-ion and sodium-based battery technologies.

**IMF flags low number of suspicious transaction reports in real estate sector:** (Economy: Positive)

The International Monetary Fund (IMF) has asked Pakistan to address the low level of suspicious transaction reports (STRs) related to the real estate sector, tackling the increased numbers of trade-based money laundering (TBML) and sharing information of beneficial owner (BO) to prevent misuse of legal entities. Top official sources confirmed to The News on Monday the IMF had granted its assent for release of fourth tranche of \$1.1 billion for Pakistan under Extended Fund Facility (EFF) and found that there was quite low numbers of STRs generated by designated non-financial and business professions (DNFBPs) amid increasing perception that the untaxed and dirty money was parked in the real estate sector of the country.

**Govt revises Gwadar Port tariff structure to attract greater traffic:** (Economy: Positive)

In line with the directions from the Federal Minister of Maritime Affairs, the Gwadar Port Authority has revised its port tariff structure to attract greater transit and international transshipment container traffic through Gwadar port. The decision to significantly reduce tariffs is expected to increase global transit traffic. The authority has reduced berthing fees for container vessels and ships carrying transit or transshipment cargo by 25%, said Chaudhry. Port charges on international transshipment container cargo have been lowered by 40%, he added. Port charges on transit container cargo have been reduced by 31%. Moreover, the authority is offering a one-month free storage facility for general cargo. An unprecedented incentive compared to other national ports, which typically offer only five days. The implementation of the policy to make Gwadar a regional logistics hub has begun, said Chaudhry.

**Senate panel informed of PL hike before IMF meeting:** (Economy: Negative)

Pakistan fulfilled the prerequisite of increasing the petroleum levy to Rs 160 per litre ahead of the IMF Board of Directors meeting, a move that secured the release of a USD1.2 billion tranche. Federal Minister for Petroleum Ali Pervaiz Malik informed a parliamentary panel. Among 18 surveyed countries, Pakistan's petrol prices rank as the second highest, while High-Speed Diesel (HSD) remains in the middle tier, following price hikes of 56 percent and 48 percent respectively since February 28. In contrast, petrol and HSD prices remained stable in neighbouring India and saw significantly lower increases in Bangladesh compared to Pakistan, according to the briefing to parliamentarians.

<https://www.brecorder.com/news/40420761/>

**Second Qatari LNG tanker heads to Pakistan via Hormuz:** (Economy: Positive)

A second Qatari liquefied natural gas tanker is transiting the Strait of Hormuz days after the first such cargo crossed under an arrangement involving Iran and Pakistan, highlighting how cargoes are crossing the waterway on a case-by-case basis amid ongoing conflict risks. The vessel, Mihzem, with capacity of 174,000 cubic metres, departed Ras Laffan and is heading northeast toward Port Qasim in Pakistan, where it is expected to arrive on May 12, according to LSEG shipping data. This would be the second successful passage through Hormuz for a Qatari LNG tanker since the start of Iran war. On Saturday, LNG tanker Al Kharaitiyat started crossing Hormuz via the Iranian-approved northern route and on Sunday it managed to cross the strait. Two more tankers laden with Qatari LNG are expected to head to Pakistan in the coming days. Pakistan has been in discussions with Iran to allow a limited number of LNG tankers to pass through the strait, as Islamabad urgently needs to address its gas shortage.

<https://www.thenews.pk/print/1414967>

**Remittances increase to \$33.8bn despite war:** (Economy: Positive)

Despite 73 days of conflict and heightened uncertainty in the Gulf, remittance inflows continued to rise, recording an 8.5 percent increase during the first 10 months of FY26. Remittances from across the Middle East increased and accounted for 53pc, or \$18.2 billion, of the total inflows of \$33.859bn during July-April 2025-26. It was also noteworthy that remittances rose by \$10bn within two years — from \$23.85bn in the first 10 months of FY24 to \$33.86bn in FY26. According to the State Bank of Pakistan (SBP), workers' remittances stood at \$3.5bn in April, an increase of 11.4pc year-on-year but declined by 7.6pc month-on-month.

<https://www.dawn.com/news/1999488/>

**IT drives 17pc surge in services exports:** (Economy: Positive)

Pakistan's services exports rose 17.05 percent during the first nine months of the current fiscal year, driven largely by higher earnings from the information technology sector. The steady expansion in services exports contrasts with mixed trends in merchandise trade, driven mainly by sustained growth in the IT sector. The government projects IT exports to reach between \$4.5bn and \$4.6bn by end of the FY26. Prime Minister Shehbaz Sharif chaired a meeting on information technology to review measures aimed at boosting services exports. Data compiled by the Pakistan Bureau of Statistics showed that services exports increased to \$7.34bn in July-March FY26 from \$6.27bn in the same period last year.
