MORNING NEWS

IMF sets 11 new conditions, including parliamentary approval of FY2027 Budget: (Economy: Neutral to Negative)

The International Monetary Fund (IMF) has slapped 11 new Structural Benchmarks (SBs) on Pakistan including parliamentary approval of a fiscal year 2027 budget in line with IMF staff agreement to meet programme targets, notification of the semi-annual gas tariff adjustment, the annual power tariff adjustment and enhancing NAB's autonomy and transparency by submitting to parliament amendments to the NAB ordinance to establish an open, merit-based, rigorous and competitive selection process of senior management. This has been revealed in the report third review under the Extended Fund Facility and second review under the Resilience and Sustainability Facility, bringing the number to 55 condition under the program. New SBs are proposed to monitor the program's structural agenda, including on approval of the FY27 budget, improving revenue administration, strengthening the anti-corruption and public procurement frameworks, continuing regular adjustments to gas and power tariffs, maintaining the generosity of the UCT program, preparing a roadmap for gradual FX liberalization, and enhancing regulatory transparency and predictability.

Pakistan issues first Panda Bond in China's onshore capital market: (Economy: Positive)

Pakistan issued on Thursday its first Panda Bond in China's onshore capital market, Advisor to the Finance Minister Khurram Schehzad announced. The inaugural Panda Bond is a 3-year fixed-rate instrument, making it Pakistan's first-ever RMB-denominated sovereign issuance in China's onshore capital market. The landmark Panda Bond issuance of RMB 1.75 billion (equivalent to US\$250 million) attracted overwhelming investor demand of over RMB 8.8 billion (approximately US\$1.26 billion), resulting in an oversubscription of more than 5 times. The strong order book enabled highly competitive pricing (2.5% coupon), demonstrating the market's positive assessment of Pakistan's improving macroeconomic fundamentals, external stability, disciplined fiscal management, and sovereign repayment capacity.

Oil refineries: SIFC to ensure removal of major tax distortion: (Economy: Neutral)

The Special Investment Facilitation Council (SIFC) will ensure the removal of a major tax distortion for the oil refineries in the upcoming budget (2026-27). This was stated by Sajid Mahmood Qazi, Additional Secretary SIFC. He admitted that, in terms of investment, Pakistan is a challenging destination. The investors are facing some key issues, like energy pricing, which are roadblocks to investment. According to him, there is a need for consistency of policies, particularly tax policies in Pakistan.

Nepra approves tariff for electricity import from Iran: (Economy: Positive)

The National Electric Power Regulatory Authority (NEPRA) has approved tariff with the range of 12.40 Cents/kWh for import of 104 MW electricity and an additional 100 MW from Iran's state-owned power company, TAVANIR, while expressing serious concerns over procedural violations and lack of long-term planning by Pakistani authorities. The decision comes in response to an application filed by the Central Power Purchasing Agency-Guarantee Limited (CPPA-G), following the Economic Coordination Committee's (ECC) approval in August 2023 to extend and expand the cross-border electricity supply agreement. The CPPA-G had sought approval for extending the tariff of the existing 104 MW supply and securing an additional 100 MW through amendments to the long-standing power purchase agreement with Iran.

Strong policies aid recovery, bolster resilience: IMF: (Economy: Neutral)

The International Monetary Fund (IMF) said that strong policy implementation has continued to support Pakistan's economic recovery, build confidence and bolster its resilience to shocks. The Fund in its latest report noted that GDP growth accelerated in FY26H1, while inflation remained contained, the current account was broadly balanced, and reserve rebuilding exceeded earlier projections. However, the impact of the war in the Middle East clouds Pakistan's near-term outlook and there is great uncertainty about how developments will unfold. Under the baseline scenario, the war is expected to put upward pressure on inflation and weigh on growth and the balance of payments, but the overall impact is expected to be contained. However, downside risks are high.

Six-month T-bills yield hits 12.26pc, highest since Nov 2024: (Economy: Neutral to Negative)

The six-month yield on Treasury bills jumped to a one-and-a-half-year high on Thursday as concerns grow over the chances of another rate hike by the central bank in the next policy review, fuelled by rising energy prices linked to the ongoing conflict in the Middle East. The six-month T-bill yield has crossed the 12 per cent mark and is currently at 12.26 per cent, the highest level seen in 1.5 years. In the T-bill auction held on Wednesday, the government raised Rs950 billion against a target of Rs1 trillion, while total participation remained exceptionally strong at Rs2.56 trillion, reflecting ample liquidity in the system. The sharp increase in cut-off yields -- particularly the 40 bps rise in 12-month papers and 37 bps increase in six-month tenor -- indicates growing market expectations of further monetary tightening following the SBP's recent 100 bps policy rate hike to 11.5 per cent.
