Iran conveys concerns to US via ‘mediator Pakistan’: Trump pauses strikes on Iran planned for today: (Economy: Positive)

Iran said Monday it had responded to a new US proposal aimed at ending the war, adding that diplomatic exchanges continue despite Iranian media reports describing Washington’s demands as excessive. Washington and Tehran have been swapping proposals in an effort to end the conflict which the US and Israel launched on February 28, but they have held only a single round of talks despite a fragile ceasefire. “As we announced yesterday, our concerns were conveyed to the American side,” foreign ministry spokesman Esmail Baqaei told a news briefing, adding that exchanges were “continuing through the Pakistani mediator”.

Pakistan, IMF agree on macroeconomic framework: (Economy: Neutral)

Pakistan and the visiting International Monetary Fund (IMF) team have broadly agreed on the macroeconomic framework, as the Ministry of Finance has projected a real GDP growth figure of 4.1 percent and CPI-based inflation on average in the range of 8.6 percent for the upcoming budget 2026-27. The IMF side has already placed a primary balance of 2 percent of GDP, equivalent to Rs2.9 trillion, for the upcoming budget. The Pakistani side negotiated with the IMF team for an envisaged real GDP growth rate of 4.1 percent against the Fund’s projection of 3.5 percent for the upcoming financial year. The CPI-based inflation, according to the sources, resulted in a heated debate as the Ministry of Finance has projected inflation in the range of 8.6 percent on average compared to the IMF’s projection of 8.4 percent, keeping in view the persistence of higher fuel prices in the first two quarters of the next financial year.

Current account slips back into deficit: (Economy: Negative)

A sharp rise in the oil import bill and persistently high imports of food and luxury goods pushed the current account back into deficit in April, wiping out the \$1 billion-plus surplus recorded a month earlier and putting renewed pressure on the country’s balance of payments. The State Bank’s latest data showed the current account posted a deficit of \$324 million in April against a surplus of \$1.134bn in March, leaving little chance for improvement in the balance of payments ahead of the close of the fiscal year on June 30, 2026. The deficit in April stood at \$324m. However, the biggest factor behind the negative current account position remained the massive trade deficit of about \$32bn during the first 10 months of the current fiscal year (FY26), particularly due to imports of food and luxury items.

April 2026: Govt to pass on Rs1.73/unit positive FCA: (Economy: Negative)

The government is set to pass on a positive Fuel Charges Adjustment (FCA) of Rs1.73 per unit for April 2026 across the country reflecting higher power generation costs due to negligible RLNG supply. The financial impact of proposed FCA adjustment will be over Rs 14 billion. However, the impact of the increase will be offset by a negative Quarterly Tariff Adjustment (QTA) of Rs1.93 per unit for the first quarter (January–March) of 2026, resulting in a net relief of Rs 0.20 per unit for consumers. According to an official statement issued by the Power Division on Monday, timely government interventions, prudent policymaking, and moderate load management have helped shield electricity consumers from a potential tariff hike of Rs 5 to Rs 6 per unit for June 2026.
