US seizes Iranian cargo ship as Tehran rejects a second round of peace talks: (Economy: Negative)
U.S. President Donald Trump said on Sunday that the U.S. military had seized an Iranian cargo ship that tried to run its blockade, while Iran said it would not participate in a second round of peace talks despite Trump's threat of renewed airstrikes. The developments indicated that peace may not come soon to the region, and a weeks-long blockade of marine traffic that has driven global oil prices higher likewise might remain in place.

This move signals renewed investor confidence in the country's economic trajectory. The bond, priced at a coupon of 6.975% per annum and maturing in April 2029, was arranged by Standard Chartered Bank acting as the sole bookrunner, ensuring smooth execution of the transaction.

Pakistan wins Russian approval for seafood exports: (Economy: Positive)

Pakistan has secured a major breakthrough in its fisheries sector, with Russian authorities approving exports of Pakistani seafood through the registration of 16 local seafood processing plants. The development opens the door to Pakistan's first-ever shipments to Russia and the broader Eurasian market, diversifying exports beyond traditional destinations and potentially adding \$300 million in export earnings from Russia alone.

IMF official outlines budget priorities: (Economy: Neutral)

The International Monetary Fund (IMF) said on Saturday that Pakistan's next budget would focus on broadening the country's narrow tax base under the third review of its USD7 billion loan program, a move analysts say may mean taxing incomes from agriculture, retail, real estate, information technology (IT) and export sectors. The IMF, under its reforms-oriented loan program, requires Pakistan to increase its revenues by withdrawing fuel subsidies and taxing incomes from sectors that remain outside the tax net. "Broadening tax base means bringing in more sectors into the tax net, not necessarily increasing tax rates," said Adnan Sami Sheikh, vice president of research at Pakistan Kuwait Investment Company Ltd.

According to a communication of the PBC to the FBR Chairman, the tax department has recently commenced issuing notices for recovery of default surcharge on super tax. This action has caused considerable concern within the business community, as it appears to be inconsistent with established legal principles and could have unintended negative consequences on business confidence and economic activity in Pakistan.

Govt moves to end used car influx: (Economy: Neutral) (Auto: Positive)

Pakistan's auto sector has welcomed a major policy shift aimed at revitalising local manufacturing, as the government moves to phase out used car imports under the baggage scheme, previously responsible for tens of thousands of vehicle inflows annually. The decision, which effectively halts a channel that brought in 42,125 units in FY2025 alone, is being seen as a turning point in efforts to reduce idle capacity and stimulate domestic production.
