MORNING NEWS

Earlier regulations: Discos directed to process net-metering pending pleas: (Economy: Neutral to Positive)

Federal Minister for Power Division, Sardar Awais Ahmad Khan Leghari, has taken a key decision regarding net metering applications submitted up to February 8, 2026 directing that all such applications be processed under the previous regulatory framework. According to the Power Division, the minister has instructed all electricity distribution companies (Discos), including K-Electric, to process and facilitate net metering applications received by February 8 under the earlier regulations. He has also directed immediate implementation of this decision. The Power Division stated that as of February 8, a total of 5,165 net metering applications had been submitted across all distribution companies, including K-Electric. These applications are expected to add 250.822 megawatts of capacity to the national grid.

Forex reserves down USD73m: (Economy: Neutral to Negative)

Pakistan's total liquid foreign exchange reserves declined by USD 73 million, settling at USD 21.302 billion for the week ended February 13, 2026, according to data released by the State Bank of Pakistan (SBP). During the week under review, the foreign exchange reserves held by the SBP registered a modest increase. In contrast, net foreign reserves held by commercial banks recorded a decline. The SBP reported its reserves rose by USD 19 million to reach USD 16.197 billion end of the last week. Reserves held by commercial banks fell by USD 92 million to USD 5.105 billion, compared with USD 5.197 billion a week earlier.

Gas & condensate discovered at Dars West-3 Well: (Economy: Positive, OGDC: Positive)

Oil and Gas Development Company Limited (OGDC), leading exploration and production company on Thursday announced a gas and condensate discovery at its Dars West-3 well located in the Tando Allah Yar district of Sindh. The new development well was successfully tested in the C-Sands of the Lower Goru Formation. The well was drilled to a total depth of 2,100 metres and tested using OGDC's in-house technical expertise. During testing, Dars West-3 flowed at a rate of 9.70 million standard cubic feet per day (MMSCFD) of gas along with 580 barrels per day (BPD) of condensate at a choke size of 36/64 inches. The wellhead flowing pressure was recorded at 1,725 psi from the Lower Goru C-Sand reservoir.

Oil prices rise as Trump puts time limit on Iran stand-off: (Economy: Negative)

Oil prices were higher on Friday as concern of conflict between the U.S. and Iran ratcheted up, with Washington saying Tehran will suffer if it does not agree a deal about its nuclear activity within a matter of days. Brent crude futures rose 21 cents, or 0.3%, to \$71.87, while U.S. West Texas Intermediate crude gained 23 cents, or 0.4% to \$66.66. Prices settled at their highest in six months on Thursday after U.S. President Trump said "really bad things" would happen if Iran does not come to an agreement regarding a nuclear program it has said is peaceful but that the U.S. believes is militaristic. Trump set a deadline of 10 to 15 days.

Surplus gas supply to power, fertiliser sectors proposed: (Economy: Neutral)

The Petroleum Division is seeking approval of the Economic Coordination Committee (ECC) for gas allocation from a Pakistan Petroleum Limited (PPL) field to power and fertiliser sectors only through competitive bidding. Under the policy of gas allocation to third parties, all sectors are eligible to participate in competitive bidding. This policy has been approved by the federal government, which allows exploration companies to provide 35% of gas to third parties through bidding. But the Petroleum Division has approached the ECC to bind PPL to supply gas to the power and fertiliser sectors only. Industry officials call it a "pick and choose policy", which would also hit PPL that may receive lower prices due to limited participation in bidding.

Investment stuck at 13.8% of GDP: (Economy: Neutral)

Bangladesh had a turbulent 2025, yet its investment-to-GDP ratio stood at 22.4% — still far above Pakistan's 13.8%, which has failed to regain even its FY2022 peak of 15.6%. Regional peers such as India and Vietnam continue to sustain investment levels above 30%, underscoring Pakistan's persistent position as the lowest-investing major economy in Asia. Although the current hybrid and multiparty setup has achieved macroeconomic stability, it has clearly failed to improve investor sentiment and investment outcomes. Industry leaders say structural barriers remain largely unaddressed despite the creation of a high-level investment facilitation council intended to streamline approvals. Although improving, executives report that establishing an industrial project still requires roughly 25 regulatory permissions across federal and provincial agencies, prolonging timelines and raising uncertainty.
