Trump raises global tariff to 15pc as countries weigh impact: (Economy: Negative)

Doubling down on his announcement to maintain aggressive tariff policy a day after the Supreme Court ruled much of it 'illegal', President Donald Trump raised the global duty on imports into the United States to 15pc on Saturday. He had announced an initial 10pc duty in the immediate aftermath of the SC ruling. Over the next few months, he added, his administration would seek further alternative ways to impose "legally permissible" tariffs.

Govt says 5-year wheat policy being readied: (Economy: Neutral to Positive)

Federal Minister for National Food Security and Research, Rana Tanveer Hussain on Saturday said the government is formulating a comprehensive long-term wheat policy for 2026–30, aimed at strengthening national food security through modern reforms. He said the upcoming policy will focus on digital traceability mechanisms, improved supply chain monitoring, enhanced transparency, and sustained price stability, facilitating better coordination between federal and provincial governments.

Wheat procurement price fixed at Rs3,500: (Economy: Positive)

The federal government has set an illustrative wheat procurement price at Rs3,500 per 40 kilograms and has sensitised the provinces to ensure the smooth implementation of the procurement drive during the upcoming harvesting season. The current procurement framework will remain applicable for one year, as the federal government is working on a comprehensive long-term wheat policy for 2026-2030.

Panda bond plan hits a snag: (Economy: Neutral to Negative)

Pakistan's plan to raise \$250 million through Chinese Panda bonds has hit a snag due to the selection of disputed sites for two projects, which will be funded against the bond proceeds, including the \$760 million worth Jinnah Medical Complex. Because of its weak credit rating, Pakistan cannot directly access Chinese debt markets and has sought credit guarantees from the Asian Development Bank (ADB) and the Asian Infrastructure Investment Bank (AIIB). According to officials of a multilateral lending agency, the AJK site issue was resolved after Pakistan agreed to remove the location following objections raised by India. However, the land issue for the Jinnah Medical Complex remains unresolved.

Pakistan gas debt swells to Rs3.28tr: (Economy: Negative)

Pakistan's gas sector is sinking under a staggering Rs3.283 trillion circular debt, lawmakers were told on Friday, as parliamentarians warned that mounting losses at state-run utilities could ultimately collapse the system and further burden consumers. The disclosure before the National Assembly's Standing Committee on Petroleum triggered sharp criticism and calls for structural reform, including privatisation, of the country's two gas distribution companies.

Government borrowing increases five times: (Economy: Negative)

The government borrowed almost five times more from banks in the first seven months of FY26 than in the same period last year, reflecting growing spending despite higher revenue collections. The data issued by the State Bank showed that the government borrowed Rs1,912 billion in 7MFY26 from the commercial banks compared to Rs408bn a year ago.

Ramazan inflation hits household budgets: (Economy: Negative)

Short-term inflation, measured through the Sensitive Price Index (SPI), rose 5.19 per cent year-on-year in the week ending Feb 19, reflecting higher retail prices of perishable food items and energy products in the domestic market. On a week-on-week basis, the SPI edged up by 1.16pc from the previous week, official data showed on Friday.

Profits and dividend outflows jump 26pc: (Economy: Neutral to Negative)

The outflow of profits and dividends on foreign investments rose by 26 per cent during the first seven months of the current fiscal year, even as foreign direct investment (FDI) declined by 41pc over the same period. The State Bank's latest data shows that profit and dividend outflows on foreign investment during July-January FY26 increased by 26pc to \$1.677 billion compared to \$1.328bn in the same period of FY25. The increase reflects a relatively relaxed policy by the central bank regarding profit repatriation.

Non-textile exports dip 17pc in July-January: (Economy: Negative)

Exports of non-textile products dipped by 17.32 per cent to \$7.286 billion in the first seven months of the current fiscal year from \$8.812bn, largely attributed to a steep reduction in exports of agricultural produce and value-added shipments. The contraction reflects mounting pressure on key sectors, especially agriculture-based products, which have struggled with lower volumes and weaker external demand.
