**Monthly FCA: Consumers of Discos & KE set to pay extra Rs18bn:** (Economy: Negative)

Consumers of Power Distribution Companies (Discos) and K-Electric are set to pay an additional amount exceeding Rs 18 billion under the monthly Fuel Charges Adjustment (FCA) at Rs 1.78 per unit, along with 18 percent GST. The increase is primarily attributed to an unprecedented 14 percent rise in power generation (1,100 million units) in January and a revision in the FCA reference for January 2026, carrying a financial impact of Rs 1.35 per unit. CPPA-G informed the Authority that although it had sought a positive adjustment of Rs 1.78 per unit for January, to be recovered in March 2026, the 28 paise per unit already charged in February 2026 would be done away with, reducing the net impact to Rs 1.50 per unit.

**EU-India FTA does not pose immediate threat to Pakistan: MoC:** (Economy: Neutral)

The Ministry of Commerce has stated that, at this stage, the proposed European Union (EU)-India Free Trade Agreement (FTA) does not pose an immediate threat to Pakistan's exports. It maintained that even after the agreement becomes operational and tariffs on Indian goods are gradually eliminated, Pakistan will continue to enjoy zero-duty access for its key exports under the EU's GSP+ arrangement. In a written brief submitted to the National Assembly Standing Committee on Commerce, the ministry noted that the EU remains Pakistan's largest export destination, accounting for 28 percent of the country's total exports. Pakistan currently benefits from duty-free access under the EU's GSP+ scheme, which has significantly contributed to export growth and market penetration in European markets.

## **Power Division rejects Nepra's report, cites Rs780bn circular debt cut:** (Economy: Neutral)

Pakistan's Power Division on Thursday rejected a recent report by National Electric Power Regulatory Authority, saying it misrepresents the performance of distribution companies and overlooks a "historic turnaround" that cut circular debt by Rs780 billion in the fiscal year 2024-25. In a detailed rebuttal, the division said circular debt fell from Rs2.393 trillion in FY2024 to Rs1.614 trillion in FY2025, describing the reduction as 'unprecedented' in the sector's history. It attributed the improvement to Rs193 billion in better performance by power distribution companies (Discos), Rs260 billion in late payment interest (LPI) waivers negotiated with power producers and over Rs300 billion in gains from improved macroeconomic indicators. The Power Division said the Rs193 billion contribution from Discos stemmed from tighter operational and financial discipline, arguing that the regulator's assessment failed to reflect progress made on the ground.
