Govt comes up with hybrid plan to tackle power crisis: (Economy: Neutral)

While the focus currently remains on managing petroleum supplies and prices, the government is expected to adopt a hybrid arrangement of load-shedding, compulsory conservation and tariff hikes in the power sector to meet summer demand amid the ongoing Middle East crisis. Senior government officials told Dawn that the Power Division and its entities were working on multiple models to balance rising summer demand, reduced availability of imported coal and liquefied natural gas (LNG) and the higher cost of alternative fuels, particularly furnace oil, to run power plants.

Pakistan grants temporary exemption for exports to Iran: (Economy: Positive)

The Ministry of Commerce has approved a temporary waiver of financial instruments for exports to Iran and Central Asian states, in a bid to ease trade flows and boost regional connectivity. The three-month waiver, effective from March 24 to June 21, permits exports via land routes and is designed to reduce transaction costs and delays for businesses, particularly in the absence of formal banking ties with Iran. The move partially exempts exporters from State Bank of Pakistan (SBP) regulations, while maintaining the requirement to repatriate export proceeds within a prescribed timeframe.
