He highlighted that Pakistan's digital economy was among the fastest-growing in South Asia, powered by a youthful population, growing connectivity and a strong IT talent base producing over 75,000 graduates annually. He shared that the National E-Commerce Policy 2.0 (2025-30) was being finalised to expand Pakistan's e-commerce market to \$20 billion by 2030, with a focus on micro, small and medium enterprises' (MSME) digitisation, logistics improvement and cross-border trade facilitation. https://tribune.com.pk/story/2574897/e-commerce-policy-20-targets-20b-market

World Indices					Sindh delays 45% agri-income tax: (Economy: Neutral to Negative) The Sindh government has deferred the implementation of up to 45% agriculture income tax for one year and restored the old low rate of 15% on the ground that new rates cannot be enforced with effect from January this year. The restoration of the old rate means that the agriculture sector, which has one-fourth share in the national economy, will hardly contribute a few billion rupees in income tax. Compared to this, revised calculations showed that the salaried class paid Rs575 billion in income tax in fiscal year 2024-25. https://tribune.com.pk/story/2574895/sindh-delays-45-agri-income-tax

Revised determination for KE: Nepra's 'collective' wisdom questioned at public hearing: (Economy: Neutral to Negative)

National Electric Power Regulatory Authority's (Nepra) "collective wisdom" — a term often cited in its decisions — came under scrutiny in the revised determination for K-Electric (KE), which resulted in a reduction of the utility's supply tariff by Rs 7.60 per unit, from Rs 39.97/kWh to Rs 32.37/kWh. On a question regarding the electricity "incremental package" recently announced by the Prime Minister, Nepra officials said that no official documents had yet been received. Once the government submits a formal request for approval, a public hearing will be scheduled.

Rice exports fall 28pc in first quarter of 2025-26: (Economy: Negative)

Pakistan's rice exports fell 28 per cent in the first quarter of FY26, raising concerns within the sector about policy and regulatory barriers that continue to undermine competitiveness. According to official data, total rice exports dropped to 712,797 tonnes from 991,146 tonnes during the same period last year. Analysts attribute the fall to a mix of fiscal, monetary, and administrative measures that have made Pakistani rice less competitive internationally, especially against India.
